

Our free app **SMET au tri** provides you with all the information you will need on :

- Waste sorting
- Bin collection day
- Recycling centre opening times

only available  
in French

## Don't take a vacation from recycling

The Meuse department has exceptional natural settings to offer. You can help us protect it by adopting some ecofriendly habits.

## The holiday waste sorting guide

GENERAL INFORMATION | WASTE SORTING GUIDE

### Memo

The black bin for general household waste is collected on :

.....

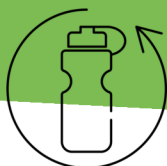

The yellow bag for recyclable waste is collected on :

.....

The nearest glass container is located :

.....

### REUSE

No more single use ! While on the go, grab your refillable water bottle and your lunch box - it might even make you spend less and eat healthier meals !

### REDUCE

Between snacks and meals to go, we tend to produce more waste on vacation. So why not opting for bulk products, or ones that have less packagings ?

### REFUSE

A leaflet you will never open again, a flyer you will throw away once back at home ? If you don't need this product, just say no !

### RECYCLE

We sort our waste here too ! You will find in this guide all the necessary information to become a local sorting champion !

### ENJOY YOUR STAY !

The Meuse thanks you !

# Recyclable waste

Waste must be separated and empty

Plastic objects not allowed

PLASTIC PACKAGINGS
